

User
 id integer
name string
family_name string
middle_name string
verification_code string
email string
password_hash string
vk_link string
linkedin_link string
instagram_link string
facebook_link string

Answer
 id integer
user_id integer
homework_id integer
answer string
submit_date datetime

Student
 user_id integer
group_num integer
entity_year integer
is_pay boolean

Tutor
connect user, which is tutor, with the course they perform
 user_id integer
 course_id integer

Moderator
connect user, which is student, with the course they are responsible for
 user_id integer
 course_id integer

Homework
 id integer
name string
description string
valid_from datetime
valid_to datetime
course_id integer

Group
 num integer
degree string
grade integer

Course
 id integer
name string
description string

Material
 id integer
name string
text string
date datetime
course_id integer

Curriculum
connects groups and courses they attend
 group_num integer
 course_id integer
